Powder Puff Pilots?

We got this catalog in the mail and I thought it was a great idea! So many of us pilots (women and men) want to take our kids up in an airplane, but unfortunately, it seems like more little boys show up for the flights than girls.

Ahart Aviation has always been in the business of promoting women in aviation and this set of products might just help some of our younger aspiring pilots (which happen to be girls and women) get the idea that aviation isn't just for men!

Ahart Aviation isn't selling these products presently, but we just think it's a good idea to help get girls into aviation.

Enjoy.
